Sign Up For Your Clubroot Soil Test Today

DNA-based testing can be used to detect low levels of the clubroot pathogen. Early detection and proactive clubroot management strategies can be used to keep spore levels low and minimize yield losses.

To encourage testing, SaskCanola and the Ministry of Agriculture are offering fall clubroot soil testing to producers across the province. Taking part in this program has value for you as an individual producer, and also provides value for your fellow Saskatchewan canola producers. The \$100-value of this test is covered by SaskCanola.

Sign up to receive your test by:

- Following the QR code at right;
- Calling SaskCanola at 306-975-0262;
- Contacting your local Saskatchewan Association of Rural Municipalities Plant Health Officer or RM office;
- Visiting a Ministry of Agriculture regional office; or
- Calling the Agriculture Knowledge Centre at 1-866-457-2377.

saskatchewan.ca/crops

The Government of Canada and Pest Management Regulatory Agency recently announced that Strychnine will be de-registered. This will mean 2% liquid concentrate Strychnine can't be manufactured after March 4, 2021, cannot be sold after March 4, 2022, and producers can't use the product after March 4, 2023.

Please be aware of the safety issues and consequences of a ratepayer pushing snow from a driveway on to the municipal road or shoulder. Piles of snow left on or near the road can freeze creating a hazardous situation for vehicles and snow removal equipment. This hazard exposes the risk of serious bodily injury and poses the risk of liability for the resulting damages to the party who

Controlled Burn

Always report your planned control burn to avoid possible fire call costs. When burning grass, bush piles, stubble, etc. please be sure you are well-prepared and that you have fire guards in place.

Prior to any burning, call into the Control Burn Centre at 1-866-404-4911.

Fire Insurance

Coverage –

Ratepayers are responsible for any firefighting charges when the fire department is called for a fire on your property.

Please ensure to have adequate fire insurance coverage.

All organic farmers are encouraged to register all their organic lands to the RM office as to let commercial pesticide applicators take the necessary precautions to avoid spray drift onto such lands.

pushed the snow on the road. Please keep our roads safe.

*****DEVELOPMENT AND BUILDING PERMITS*****

Under the Zoning Bylaw, the RM of Meeting Lake No. 466 requires permits to be completed for any new development, construction or demolition on existing properties. Forms available on-line or at the RM office.

A building permit is separate from the development permit. A building permit refers to the building construction and compliance with the National Building Code and is governed by the RM Building Bylaw. Permit application forms are available on-line or at the RM office.

Permits will not be issued until all applicable fees are paid.

Looking a renting a bin for your own personal use or as a group for garbage disposal or recycling please contact your local recycling company.

Seeding of Crops on Municipal Road Allowances is Prohibited.

Council is requesting that ratepayers do not farm/crop main grid municipal road allowance. Crops will be cut with mower if it is within the one pass of 15 feet, shoulder cut.

NOXIOUS WEEDS

Please be aware of and immediately report any noxious weeds to the RM office. Keeping these difficult and invasive weeds out of our RM is to everyone's benefit.

Animals Roaming at Large

Keeping animals within your property is the responsibility of the owner. If your animals are roaming within the R.M., action may be taken to restrain the animals and all costs incurred in doing so will be the responsibility of the animals' owner.
