

## Plan Review Checklist - House Addition

Home Owner/Builders: The following information is required when submitting an application for a residential building permit and before a building permit is issued. The plan review will not begin until all required information is provided.

## **Required Information:**

- 2 sets of Site Plans with the following information
  - Show size and location of proposed house addition
  - o Show size and location of existing buildings on property
  - o Show lot dimensions and shape
  - Show distance between buildings and property lines
  - o Show North direction arrow
- 2 sets of <u>House Addition Layout Drawings</u> with the following information
  - o Exterior and Interior wall locations
  - Window sizes and locations
  - Door sizes, locations and swing direction
  - o Heating unit/system location
- 2 sets of <u>House Addition Structural Drawings</u> with the following information
  - o Foundation Detail (type, size, layout and location)
  - Wall Detail (interior and exterior)
  - o Roof Detail (eng truss, roof rafters)
  - o Floor Detail (eng joists, dimensional lumber)
- 2 copies of the Mechanical Ventilation Design Summary filled out by the mechanical contractor
- 2 copies of the <u>Building Permit Application</u> properly filled out

**Required On-Site Inspections:** (inspection requirements may change depending on the project type and size)

- Plan Review (Prior to the commencement of any construction)
- Foundation (Prior to pouring concrete on engineered foundations or prior to backfill)
- Framing (Prior to insulating and applying vapour barrier to the exterior walls)
- Insulation and Vapour Barrier (Prior to covering walls and ceiling with wall/gypsum board)
- Final (Prior to moving in or occupying the building)
